ARCH 2: North Lauder Locale

The North Lauder locale has a long archaeological and geological history that is important for understanding the forces that shaped the region. Archaeological research in the locale shows that the area has been occupied by humans for at least the past 6,500 years. Environmental forces provided an area of diverse resources that attracted early peoples.

Environment of the Lauder Sandhills

The North Lauder locale is part of the greater Lauder Sandhills area. The glaciers that covered this region began to recede approximately 11,000 years ago leaving a large lake known as glacial Lake Hind. The Souris River, the Lauder Sandhills and the Oak Lake Aquifer are remnants of the environmental and geological forces that shaped the region.

The Lauder Sandhills region is characterized by a landscape of sand sheets and stabilized sand dunes interspersed with a variety of wetlands. This complex topographic and hydrological situation favoured the development of an island mosaic of mixed forest, wetland and meadow, surrounded by mixed grass prairie. The result was a large, isolated ecotone which provided a rich variety of subsistence resources for hunter-gatherers.

Research in the Lauder Sandhills

Archaeologists from Brandon University have been conducting research in the Lauder Sandhills since 1991. Research in the North Lauder locale has focused on the Atkinson site, a 6,500 year old hunter-gatherer site and Flintstone Hill.

The Atkinson site

The Atkinson site is one of the oldest excavated sites in Manitoba and has been Radiocarbon dated to 6,500 years before present. The Atkinson site is located on the bank of the Souris River and was discovered when a hearth (fire pit) was seen eroding out of the bank. Based on the date of the site and the kind of lithics (stone tools) present it is considered a Gowen occupation. The Atkinson site is evidence that bison hunters were active on the northern plains at a very early date. Similar sites have also been found on the High Plains in the U.S. and are referred to as the Mummy Cave Complex.

The Atkinson Site is of great importance as it is the first undisturbed site of this type to be excavated in Manitoba and extends the range of these sites south and east from the type-sites in central Saskatchewan.

Flintstone Hill

The geomorphology of the glacial Lake Hind Basin over the past 11,000 years is known primarily through the study of a cut bank along the Souris River. Flint Stone Hill contains the most complete stratigraphic record for the post-glacial period on the northern plains. The site has been extensively studied by geoarchaeologists, geologists and paleoenvironmentalists over many years and their findings have contributed to our understanding of the region.

The North Lauder locale Borden designations of Atkinson site DiMe-27 and Flintstone Hill site DiMe-26.

Borden System

Archaeological sites in Canada are identified by the Borden system, which is a uniform site designation system. The country is divided into grids based on latitude and longitude in blocks of 10 x 20 minutes. The first 4 letters indicate the block and the following numbers indicate the actual site. For example the area of the Lauder Sandhills in southwestern Manitoba is identified by the letters DM and the North Lauder locale within that area is DiMe. The Atkinson site is DiMe-27 and the Flintstone Hill site DiMe-26. As new sites are discovered they will be numbered sequentially.

ARCH 3: Lovstrom locale

<http://archives.brandonu.ca/en/permalink/descriptions12406>

Part Of: RG 7 Beverley Nicholson fonds

Description Level: Series

Series Number: 3

Accession Number: 1-2010

GMD: multiple media

Date Range: 1985 to 1991

History /

Biographical:

The Lovstrom locale first came to the attention of Dr. Nicholson through conversations with landowners Mr. and Mrs. Herb Lovstrom in 1985. Lovstrom is a multi-component archaeological locale located 25km south of Brandon overlooking the Souris River channel. The landowner's surface collection and the presence of bone and artifacts in a cultivated field indicated the presence of one or more sites.

Limited testing was conducted in 1985 and 1986, followed by major excavations in 1987, 1988 and 1991. Eight sites of block excavations with a total of 132 1m² excavation units were completed. The locale area extends approximately 500m north from the edge of the Souris Valley escarpment and over 200m east from the Jock's Creek escarpment.

Physical and biological environment As has been noted above, the locale is bounded on the south by the Souris channel and on the west by the incised channel of Jock's Creek and a till plain extends to the north and the east. This plain is characterized by buff colored glacial till with numerous rocks embedded in the surface. Surrounding these rocky knolls are dark-soil hollows where the various cultural occupations are found. The depth of the topsoil layer suggests a long term grassland cover with the present oak forest likely developing in historic times due to the elimination of bison grazing and the controlling of prairie fires in late historic times. A small cleared patch of farmland is found within the boundaries of the locale area. This area has provided a substantial surface collection of artifacts.

Present vegetation in the area is a mosaic of aspen/oak forest groves and mesic grass prairie that includes introduced species such as brome grass. In poorly drained areas, willow and red osier dogwood are present. The Lovstrom locale is found in a forested area dominated by oak with an under story of saskatoon, chokecherry, pin cherry, and hazelnut brush. Poison ivy is abundant as well as sarsaparilla.

The major faunal resources in Precontact times would have been bison, with elk and mule deer playing a minor role. Antelope may have been present also. Small animals included snowshoe hare, cottontails, porcupines and beaver. Canids, including wolf, coyote, fox and domesticated dog were present, as well as mustelids such as badger, mink, and weasel. Fragments from a fisher were also recovered in the excavations.

Summation.

The Lovstrom locale has eight sites. The sites were designated and excavated as Blocks A, B, C, D, E, F, G and H. Many of the sites are multi-occupations.

The Vickers materials are primarily confined to Blocks D, E, F, G and H. Vickers Focus materials overlie Blackduck/Duck Bay materials. Blackduck and Duck Bay materials are found in the lower levels of all excavation blocks and in most test units. The Vickers occupations at the Lovstrom locale, based upon ceramic wares and an overlapping of C14 dates, appear to have been contemporary with the Lowton type site to the east, near Belmont. A small protohistoric occupation was identified overlying part of Block D. Faunal remains are abundant with bison clearly dominating the assemblages. Lesser amounts of canid are present as well as small mammals including beaver, hare and mustelids. Small amounts of avian species are also present.

McGuinness artifacts and sound recordings

Other Title Info: Title based on the contents of the series

Part Of: Fred McGuinness collection

Description Level: Series

Series Number: McG 7

Accession Number: 1-2015

GMD: multiple media

Date Range: c. 1985-1990

Physical Description: 17 artifacts
10 sound recordings

History /

Biographical:

Artifacts in this series were collected by Fred McGuinness during the course of his lifetime as a community volunteer and newspaperman. Beginning in the mid-1930s through the Second World War, McGuinness worked with the Canadian Pacific Telegraph service in Brandon and Winnipeg. McGuinness frequently wrote about those early experiences in his newspaper columns, journals, and monographs.

In the early 1950s, while McGuinness worked as a publicist with the Unemployment Insurance Commission in Winnipeg, he volunteered with community organizations such as the Winnipeg Community Chest Drive. From 1953 to 1955, McGuinness worked as an organizer for the Province of Saskatchewan's 1955 Golden Jubilee.

After the Saskatchewan Jubilee, McGuinness worked with The Medicine Hat News as a journalist and publisher from 1955 to 1965. During that time, McGuinness became heavily involved with the Medicine Hat Chamber of Commerce. His community and business connections resulted in his appointment as a fundraiser for the Medicine Hat Junior College Library, a building project intended to see the City established with its own college.

After his work with the Saskatchewan Jubilee, McGuinness was asked to be a Regional Director for the Canadian Centennial Commission from 1965 to 1967. During that time, McGuinness returned to his hometown of Brandon in 1966, to start a 20-year career with the Brandon Sun as a publisher and vice-president. McGuinness' interest in local history, of which he often wrote, made him the recipient of local ephemera from his readers.

Custodial History:

Accession 1-2015 contains records created and collected over the course of McGuinness' career as a newspaper journalist and freelance writer. The Estate of Fred McGuinness donated the materials to the SJ McKee Archives circa 2011. The Archives accessioned the records in 2015.

Scope and Content:

This series contains artifacts collected by Fred McGuinness during the course of his lifetime as a community volunteer and newspaperman. The artifacts include one telegraph sounder, four letterpress blocks, five typesetter rulers, two patches, two buttons, one token, one tin box, and ten sound recordings.

The telegraph sounder and relay system was possibly a gift from Bill Flett, a CPR superintendent. In his story "Canadian Pacific" published in *Letters from Section 17* (1999), McGuinness mentions receiving a package containing telegraph equipment while he was working at the *Brandon Sun*. The tin box in McGuinness' collection contained copies of telegraphs announcing the end of the war.

Two letterpress type blocks have the letters "WM" which may represent the initials of Fred McGuinness' father William McGuinness. J.R. Langford donated the "Colquhoun and Beattie" type plate to McGuinness, a known collector of Brandon local history. Mr. Beattie had gifted the plate to Lanford's father who worked as a barber in Brandon in 1906. The *Brandon Sun* letterpress is likely from the period when McGuinness worked at the *Brandon Sun*.

The five typesetter rulers come from a variety of typesetter and newspaper companies and include Teletypesetter (Chicago, IL), 6 Cutting Limited (Montreal, Toronto, Winnipeg), Mergenthaler Linotype Company (Brooklyn, NY), and *The Edmonton Journal*.

The two buttons in the collection come from McGuinness' time as a community-volunteer in Winnipeg, Manitoba. One button is from the Community Chest Drive, the other button is a guest badge from the 1953 Provincial Exhibition of Manitoba.

The two patches are from the Saskatchewan Golden Jubilee (1955). Photographs of Saskatchewan Jubilee events and participants wearing the patch on their blazers can be found in the McGuinness photograph collection.

McGuinness saved a Medicine Hat College Official Opening Token from October 3, 1971. McGuinness was likely at the opening as he was originally involved in the establishment of the junior college in the 1960s.

The sound recordings in McGuinness' collection largely pertain to centennial events, which McGuinness helped organize. There is one box set containing four records of the Saskatchewan Golden Jubilee Choir. Tucked in this volume is an additional record of the Choir recorded at CKCK, Regina, Saskatchewan. Also stored within the box set was a copy "Canada, A Centennial Song."

Physical Description:	Approximately 2 m 83 books and other materials (see Material Details Note)
Material Details:	49 booklets 3 maps 3 newsletters 18 periodicals 16 pamphlets 35 newspapers [oversize drawer]

History /

Biographical:

The publications in this series were collected by Fred McGuinness during the course of his career as a newspaperman. McGuinness' personal library contained over 500 volumes pertaining to local history. He regularly consulted these materials when writing his radio broadcasts, newspaper columns, and monographs. McGuinness was known to file related materials (e.g., correspondence, newspaper clippings, invitations) between book covers of various titles.

McGuinness donated a substantial portion of his personal library to Brandon University's John E. Robbins Library when he moved to River Heights Terrace (Brandon, Manitoba). That collection can be found in BU's library catalogue under the McGuinness local history collection. The titles McGuinness retained upon his move were donated to the McKee Archives by his estate in 2011.

Custodial History:

Accession 1-2015 contains records created and collected over the course of McGuinness' career as a newspaper journalist and freelance writer. The Estate of Fred McGuinness donated the materials to the SJ McKee Archives circa 2011. The Archives accessioned the records in 2015.

Accession 20-2009 contain records created and collected by Fred McGuinness over the course of his career as a newspaper journalist and during the research and writing period of the Brandon history book, *The Wheat City*. Records remained in his possession at his home until their transfer to the McKee Archives on July 28, 2009.

Accession 6-2008 contains records created and collected during the writing of the Provincial Exhibition book, *Pride of the Land*. Fred McGuinness, who co-authored the book with Ken Coates, donated these records to the McKee Archives circa 1988. The materials relating to Souris, Manitoba, were given to McGuinness by Kay Sullivan in August 2007, and were subsequently deposited in the Archives.

Scope and Content:

This series contains publications collected by Fred McGuinness during the course of his lifetime as a newspaperman. McGuinness was a well-known local history enthusiast and frequently wrote about Brandon's local history. Many of his readers forwarded booklets and pamphlets for his consideration and review.

Materials in this series include books, booklets pamphlets, periodicals, newspapers and maps. Subjects include, but are not exclusive to: the city of Brandon, the town of Souris, memoirs, family histories, Canadian Pacific Railway, and local businesses.
