Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1
Item Number: 1-2002.3.1N3
Accession Number: 1-2002
GMD: graphic
Date Range: 1913
Physical Description: 3 1/2" x 5"
Material Details: Negative

History /
Biographical:

The Snye was a former channel (oxbow lake) of the Assiniboine River. It was located south of the Assiniboine between about 14th and 24th Streets, and during high water in the spring it carried overflow. For many years it was used as a log storage area for Hanbury's Mill. I remember there being bridges over it at 18th & 22nd Streets. It was dammed with a one way flipper valve at 14th Street that allowed water to flow out to the river, but prevented river water backing into it. Water within the Snye became stagnant in summer and formed a breeding area for mosquitoes. It was deemed a health hazard and the river was gradually filled in. LAS.
