## Farm Wagons at Great Northern (BS&HB) Station in Bunclody

<http://archives.brandonu.ca/en/permalink/descriptions9992>

Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1PE15

Accession Number: 1-2002

GMD: graphic

Date Range: [between 1906 and 1936]

Physical Description: 3 1/2" x 5"

Material Details: Negative

History /

Biographical:

According to Stuckey and Bain (1996), "The Brandon, Saskatchewan & Hudson's Bay Railway was built and operated as a totally owned subsidiary of the Great Northern Railway. Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)

Stuckey, L. A., & Bain, D. M. (1996). The Great Northern and Northern Pacific railways in Canada. Calgary, Alberta: British Railway Modellers of North America.

Custodial History:

For custodial history see the collection level description of the Lawrence Stuckey collection.

Scope and Content:

Farm wagons at Great Northern (BS&HB) station in Bunclody, Manitoba.

Notes: From the collection of Gilford Copeland of Bunclody, Manitoba  
[Combined] copy negative LAS.

Name Access: Brandon, Saskatchewan & Hudson's Bay Railway  
Great Northern Railway  
Great Northern Railway stations

Subject Access: railroads  
railways  
railway stations  
Great Northern Railway from Church's Ferry ND to Brandon MB

Repro Restriction: The McKee Archives is the copyright holder for the Stuckey materials.

Storage Location: Lawrence Stuckey collection

## Northern Pacific and Manitoba Railway Passenger Train

<http://archives.brandonu.ca/en/permalink/descriptions9962>

Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1PC1

Accession Number: 1-2002

GMD: graphic

Date Range: [189-]

Physical Description: 3" x 5"

Material Details: Negative

History /

Biographical:

The building near the back of the train was the original Salvation Army Citadel. Built in 1889, it was purchased by Wm. Graham in 1910 and moved to the west side of the 300 block of 10th St. It had to be moved to build the Prince Edward Hotel and eventually became part of "Billy" Graham's dance hall.

Custodial History:

For custodial history see the collection level description of the Lawrence Stuckey collection.

Scope and Content:

Northern Pacific and Manitoba Railway engine No. 5, with passenger train

Notes: Smaller negative in CN old engines file.

Name Access: Northern Pacific and Manitoba Railway

Subject Access: railroads

railways

locomotives

passenger trains

Canadian National Railways in Brandon - Early

Repro Restriction: The McKee Archives is the copyright holder for the Stuckey materials.

Storage Location: Lawrence Stuckey collection

Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1PE2

Accession Number: 1-2002

GMD: graphic

Date Range: [1905 or 1906]

Physical Description: 3 1/2" x 5"

Material Details: Negative

### History /

#### Biographical:

According to Stuckey and Bain (1996), "The Brandon, Saskatchewan & Hudson's Bay Railway was built and operated as a totally owned subsidiary of the Great Northern Railway. Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)

Stuckey, L. A., & Bain, D. M. (1996). The Great Northern and Northern Pacific railways in Canada. Calgary, Alberta: British Railway Modellers of North America.

### CPR Engine 2816

<http://archives.brandonu.ca/en/permalink/descriptions9959>

Part Of: RG 11 Lawrence Stuckey fonds

Creator: Rev. Soole

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1P33

Accession Number: 1-2002

GMD: graphic

Date Range: 1936

Physical Description: 3 1/2" x 5"

Material Details: Negative

History /

Biographical:

CPR 2816 is a class H1b Hudson-type locomotive built by Montreal Locomotive Works in December 1930. Having logged more than two million miles in active service, 2816 made its final revenue run on May 26, 1960. After a complete three-year rebuild, 2816 was restored to its original specifications with external details from the 1930/40s, and re-entered active service in 2001 as a roving ambassador for Canadian Pacific Railway. [Information from Canadian Pacific Railway's website - [www.cpr.ca](http://www.cpr.ca). P.E. 28/07/09]

First engine on CPR's western lines with smoke deflectors - aka "elephant ears".

### CPR's First Streamlined Engine Class

<http://archives.brandonu.ca/en/permalink/descriptions9948>

Part Of:               RG 11 Lawrence Stuckey fonds

Creator:              E.J. Jerret

Description Level:   Item

Series Number:       3.1

Item Number:         1-2002.3.1P24(1)

Accession Number:   1-2002

GMD:                  graphic

Date Range:           September 6, 1936

Physical Description: 2 1/2" x 5"

Material Details:     Negative

#### History /

##### Biographical:

During the mid-1930s the economy and popularity of light, fast passenger trains were proven in the USA by the Burlington's "Zephyr", the Rock Island's "Rocket", and the Milwaukee Road's "Hiawatha". In 1936 the CPR built engines 3000-3004, designing each to haul a lightweight baggage car and three day coaches. Before being assigned to "The Chinook" between Calgary and Edmonton, engine 3001 and its train made an extensive publicity tour of western Canada.

[Built by Montreal Locomotive Works in 1936, this class of five F2a 4-4-4 locomotives (3000 - 3004) were named "Jubilee" type in honour of the 50th anniversary of CPR transcontinental service. P.E.]

##### Custodial History:
