Accession Number: 1-2002

GMD: graphic

Date Range: September 6, 1936

Physical Description: 2 1/2" x 3 1/2"

Material Details: Negative

History /

Biographical:

During the mid-1930s the economy and popularity of light, fast passenger trains were proven in the USA by the Burlington's "Zephyr", the Rock Island's "Rocket", and the Milwaukee Road's "Hiawatha". In 1936 the CPR built engines 3000-3004, designing each to haul a lightweight baggage car and three day coaches. Before being assigned to "The Chinook" between Calgary and Edmonton, engine 3001 and its train made an extensive publicity tour of western Canada.

[Built by Montreal Locomotive Works in 1936, this class of five F2a 4-4-4 locomotives (3000 - 3004) were named "Jubilee" type in honour of the 50th anniversary of CPR transcontinental service. P.E.]
