History /

Biographical:

The project originated in the summer of 1987 at Brandon University. It was undertaken by several Brandon University students under the guidance of Dr. William R. Morrison and Dr. Ken Coates, both professors in the Department of History. From the perspective of all involved, research and future publication were the original aims of the project. The intention was to produce a combination of documentary and oral history of the Brandon region during the Great Depression, including an extensive study of Brandon College. Initially, an outline and project summary was presented to Manitoba Heritage Grants Program for consideration and after being chosen as a recipient for the grant, regular reports on research progress were submitted. The project was discontinued at the end of the summer due to a lack of funding and availability of the researchers.

Custodial History:

The records were held in the custody of Dr. Morrison until his departure from Brandon University in 1989. At this time, the records were given to Tom Mitchell, who donated the entire project to the McKee Archives, where they were accessioned in 1997.

Scope and Content:

The sub sub sub series consists of textual records relating to Brandon and the surrounding area during the years of the Great Depression, predominantly 1929-1939. The material in the sub sub sub series falls generally into the following categories: city, provincial, and federal government documents and correspondence; newspaper articles and other publications, and statistical data. Of particular interest are four papers written by Brandon University students and six years of the Henderson Directory. Also included is a folder containing documents associated with the research project undertaken by Dr. Morrison et al. during the summer of 1987.

Arrangement:

Each subject of information has been compiled into separate folders. The first three boxes are composed of various documents sorted by the archivist. The fourth box is entirely composed of Brandon Sun articles arranged by the researchers. If there is one subject that covers a number of years, each year will typically have a folder; however, in some cases, like the Brandon Sun articles, more than one folder was needed per year.
