### History /

#### Biographical:

Due to the increasing volume of long-distance auto traffic in the 1920's, the city designated the block between Hill & Queen's Avenues and 9th & 10th streets as a "Tourist Camp" with a few basic facilities. After the demise of the Brandon Municipal Railway, several of the old car bodies were placed in the Tourist Camp to be used as cooking & eating shelters. Some may have had sleeping accommodations. Later (ca. 1938?) several were placed in a row along the south side of Victoria Avenue, approximately 28th or 29th St, and were used as the city's first drive-in hamburger place, "The Train Drive-in". This, I believe, only lasted one or two summer seasons. LAS.

Scope and Content:

CPR Ice House Fire with engine 701

Notes: This large ice house, located between the CPR tracks and Assiniboine Avenue at 3rd Street, was filled with blocks of ice from the Assiniboine River each winter. It had a long high platform for [loading ice blocks into] refrigerator cars, and also handled charcoal braziers for heating these same cars in winter. The new ice house structure that was built after this fire was much smaller, as it had an artificial ice plant.

With mechanically temperature-controlled cars replacing ice-cooled refrigerators, it was demolished in the 1970's.

This photograph shows how steam switch engines were used as fire engines. A hose carried in a box under the tender was fitted into a branch of the boiler feed pipe (discharge pipe). When the injector was turned on it gave a nozzle pressure of over 200 psi.
