

S. J. McKee Archives

Canadian Pacific and Great Northern Yards and Station in Brandon

<http://archives.brandonu.ca/en/permalink/descriptions10000>

Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1PE23

Accession Number: 1-2002

GMD: graphic

Date Range: [1913?]

Physical Description: 3 1/2" x 5"

Material Details: Negative

History /

Biographical:

According to Stuckey and Bain (1996), "The Brandon, Saskatchewan & Hudson's Bay Railway was built and operated as a totally owned subsidiary of the Great Northern Railway. Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)

Stuckey, L. A., & Bain, D. M. (1996). The Great Northern and Northern Pacific railways in Canada. Calgary, Alberta: British Railway Modellers of North America.

Custodial History:

For custodial history see the collection level description of the Lawrence Stuckey collection.

Scope and Content:

View of Canadian Pacific (foreground) and Great Northern (background) railway yards, as well as Great Northern station in Brandon, Manitoba.

Notes:

Shows a 500 series F-1 class 2-8-0 engine switching

Published in Canadian Rail, August 1975

Buildings that are visible in this photo, but now gone (1987), include Codvilles, Western Grocers (Burbridge Saddlery), John E. Smith Block, Federal building, City Hall, and the Prince Edward Hotel [Fred McGuinness collection (20-2009)].

Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)

Stuckey, L. A., & Bain, D. M. (1996). The Great Northern and Northern Pacific railways in Canada. Calgary, Alberta: British Railway Modellers of North America.

Custodial History:

For custodial history see the collection level description of the Lawrence Stuckey collection.

Scope and Content:

Great Northern (BS&HB) Railway overpass east of station, Bunclody, Manitoba.

Notes: From the collection of Gilford Copeland of Bunclody, Manitoba.

Name Access: Brandon, Saskatchewan & Hudson's Bay Railway
 Great Northern Railway

Subject Access: railroads
 railways
 manmade geographic features
 bridges
 Great Northern Railway from Church's Ferry ND to Brandon MB

Repro Restriction: The McKee Archives is the copyright holder for the Stuckey materials.

Storage Location: Lawrence Stuckey collection

Arrangement:

[Mr. Stuckey taped a print to this envelope. We have separated them, numbering the negative PE9(1) and the print PE9(2).]

History /

Biographical:

According to Stuckey and Bain (1996), "The Brandon, Saskatchewan & Hudson's Bay Railway was built and operated as a totally owned subsidiary of the Great Northern Railway.

Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)

This engine was built by Brooks in March of 1883 as No. 887 and marked as scrap [by the GN] in 1937. This engine is known to have worked passenger trains to Brandon. This class of locomotive was replaced by gas-electric [power units] in 1929 but they would be used if no gas-electric was available. Engine 185 sat dead in Minot from the closing of the Brandon line until it was scrapped.

Custodial History:

For custodial history see the collection level description of the Lawrence Stuckey collection.

Scope and Content:

Great Northern Engine 185, a class B-19 4-4-0 ["American"] type at Minot, ND.

Great Northern Engine 224 & Passenger Train at Gretna

<http://archives.brandonu.ca/en/permalink/descriptions9993>

Part Of: RG 11 Lawrence Stuckey fonds

Description Level: Item

Series Number: 3.1

Item Number: 1-2002.3.1PE16

Accession Number: 1-2002

GMD: graphic

Date Range: [between 1907 and 1926]

Physical Description: 2 1/2" x 3 1/2"

Material Details: Negative

History /

Biographical:

According to Stuckey and Bain (1996), the Great Northern opened its line from the US border to Gretna and Portage La Prairie, Manitoba on March 11, 1907. It was subsequently purchased in 1909 by the Manitoba Great Northern Railway Company – a wholly owned subsidiary of the Great Northern Railway. In 1926 the 76.14 miles of track from Portage La Prairie to Gretna was abandoned, with the exception of a 25 mile section from Carman to Plum Coulee, which was sold to the Canadian Pacific Railway. (p. 16)
