## Construction of Great Northern (BS&HB) Railway Bridge at Bunclody - Grade

<http://archives.brandonu.ca/en/permalink/descriptions9977>

Part Of: RG 11 Lawrence Stuckey fonds  
 Description Level: Item  
 Series Number: 3.1  
 Item Number: 1-2002.3.1PE1  
 Accession Number: 1-2002

GMD: graphic  
Date Range: [1905 or 1906]  
Physical Description: 3 1/2" x 5"  
Material Details: Negative

History /

Biographical:

According to Stuckey and Bain (1996), "The Brandon, Saskatchewan & Hudson's Bay Railway was built and operated as a totally owned subsidiary of the Great Northern Railway. Construction commenced in late 1905 and by the end of 1905, less than a mile of track had been laid north of the boundary at St. John. In 1906, the remaining 68.6 miles to Brandon were laid and service commenced that year. During the Depression of the 1930s, traffic declined significantly and the entire branch was abandoned in 1936. Over much of the branch's length, the ties and rails were laid on the prairie without ballast and today little remains of the line apart from traces where there were cuts and bridges." (p. 18)
