## ARCH 2: North Lauder locale

<http://archives.brandonu.ca/en/permalink/descriptions12079>

Part Of: RG 7 Beverley Nicholson fonds

Description Level: Series

Series Number: 2

Accession Number: 1-2010

GMD: multiple media

Date Range: 1997 to present

History /

Biographical:

### ARCH 2: North Lauder Locale

The North Lauder locale has a long archaeological and geological history that is important for understanding the forces that shaped the region. Archaeological research in the locale shows that the area has been occupied by humans for at least the past 6,500 years. Environmental forces provided an area of diverse resources that attracted early peoples.

#### Environment of the Lauder Sandhills

The North Lauder locale is part of the greater Lauder Sandhills area. The glaciers that covered this region began to recede approximately 11,000 years ago leaving a large lake known as glacial Lake Hind. The Souris River, the Lauder Sandhills and the Oak Lake Aquifer are remnants of the environmental and geological forces that shaped the region.

The Lauder Sandhills region is characterized by a landscape of sand sheets and stabilized sand dunes interspersed with a variety of wetlands. This complex topographic and hydrological situation favoured the development of an island mosaic of mixed forest, wetland and meadow, surrounded by mixed grass prairie. The result was a large, isolated ecotone which provided a rich variety of subsistence resources for hunter-gatherers.

#### Research in the Lauder Sandhills

Archaeologists from Brandon University have been conducting research in the Lauder Sandhills since 1991. Research in the North Lauder locale has focused on the Atkinson site, a 6,500 year old hunter-gatherer site and Flintstone Hill.

#### The Atkinson site

The Atkinson site is one of the oldest excavated sites in Manitoba and has been Radiocarbon dated to 6,500 years before present. The Atkinson site is located on the bank of the Souris River and was discovered when a hearth (fire pit) was seen eroding out of the bank. Based on the date of the site and the kind of lithics (stone tools) present it is considered a Gowen occupation. The Atkinson site is evidence that bison hunters were active on the northern plains at a very early date. Similar sites have also been found on the High Plains in the U.S. and are referred to as the Mummy Cave Complex.

The Atkinson Site is of great importance as it is the first undisturbed site of this type to be excavated in Manitoba and extends the range of these sites south and east from the type-sites in central Saskatchewan.

### Flintstone Hill

The geomorphology of the glacial Lake Hind Basin over the past 11,000 years is known primarily through the study of a cut bank along the Souris River. Flint Stone Hill contains the most complete stratigraphic record for the post-glacial period on the northern plains. The site has been extensively studied by geoarchaeologists, geologists and paleoenvironmentalists over many years and their findings have contributed to our understanding of the region.

The North Lauder locale Borden designations of Atkinson site DiMe-27 and Flintstone Hill site DiMe-26.

### Borden System

Archaeological sites in Canada are identified by the Borden system, which is a uniform site designation system. The country is divided into grids based on latitude and longitude in blocks of 10 x 20 minutes. The first 4 letters indicate the block and the following numbers indicate the actual site. For example the area of the Lauder Sandhills in southwestern Manitoba is identified by the letters DM and the North Lauder locale within that area is DiMe. The Atkinson site is DiMe-27 and the Flintstone Hill site DiMe-26. As new sites are discovered they will be numbered sequentially.

### Scope and Content:

The Series has been divided into two sub-series, including (1) Atkinson site DiMe-27 and Flintstone Hill site DiMe-26.

Name Access: North Lauder locale  
Subject Access: Archaeology  
Atkinson site DiMe-27

### Arrangement:

Series is arranged by site and by year of field work.

## ARCH 3: Lovstrom locale

<http://archives.brandonu.ca/en/permalink/descriptions12406>

Part Of: RG 7 Beverley Nicholson fonds  
Description Level: Series  
Series Number: 3  
Accession Number: 1-2010  
GMD: multiple media  
Date Range: 1985 to 1991

### History /

### Biographical:

The Lovstrom locale first came to the attention of Dr. Nicholson through conversations with landowners Mr. and Mrs. Herb Lovstrom in 1985. Lovstrom is a multi-component archaeological locale located 25km south of Brandon overlooking the Souris River channel. The landowner's surface collection and the presence of bone and artifacts in a cultivated field indicated the presence of one or more sites.

Limited testing was conducted in 1985 and 1986, followed by major excavations in 1987, 1988 and 1991. Eight sites of block excavations with a total of 132 1m2 excavation units were completed. The locale area extends approximately 500m north from the edge of the Souris Valley escarpment and over 200m east from the Jock's Creek escarpment.

Physical and biological environment As has been noted above, the locale is bounded on the south by the Souris channel and on the west by the incised channel of Jock's Creek and a till plain extends to the north and the east. This plain is characterized by buff colored glacial till with numerous rocks embedded in the surface. Surrounding these rocky knolls are dark-soil hollows where the various cultural occupations are found. The depth of the topsoil layer suggests a long term grassland cover with the present oak forest likely developing in historic times due to the elimination of bison grazing and the controlling of prairie fires in late historic times. A small cleared patch of farmland is found within the boundaries of the locale area. This area has provided a substantial surface collection of artifacts.

Present vegetation in the area is a mosaic of aspen/oak forest groves and mesic grass prairie that includes introduced species such as brome grass. In poorly drained areas, willow and red osier dogwood are present. The Lovstrom locale is found in a forested area dominated by oak with an under story of saskatoon, chokecherry, pin cherry, and hazelnut brush. Poison ivy is abundant as well as sarsaparilla.

The major faunal resources in Precontact times would have been bison, with elk and mule deer playing a minor role. Antelope may have been present also. Small animals included snowshoe hare, cottontails, porcupines and beaver. Canids, including wolf, coyote, fox and domesticated dog were present, as well as mustelids such as badger, mink, and weasel. Fragments from a fisher were also recovered in the excavations.

#### Summation.

The Lovstrom locale has eight sites. The sites were designated and excavated as Blocks A, B, C, D, E, F, G and H. Many of the sites are multi-occupations.

The Vickers materials are primarily confined to Blocks D, E, F, G and H. Vickers Focus materials overlie Blackduck/Duck Bay materials. Blackduck and Duck Bay materials are found in the lower levels of all excavation blocks and in most test units. The Vickers occupations at the Lovstrom locale, based upon ceramic wares and an overlapping of C14 dates, appear to have been contemporary with the Lowton type site to the east, near Belmont. A small protohistoric occupation was identified overlying part of Block D. Faunal remains are abundant with bison clearly dominating the assemblages. Lesser amounts of canid are present as well as small mammals including beaver, hare and mustelids. Small amounts of avian species are also present.

Scope and Content:

The Series has been divided into nine sub-series, including (1) Survey (2) Block A; (3) Block B  
(4) Block C; (5) Block D; (6) Block E; (7) Block F; (8) Block G; (9) Block H

Name Access: Lovstrom locale  
Subject Access: Archaeology  
Lovstrom locale

Arrangement:

Series is arranged by site/block and by year of field work.

## ARCH 4: Makotchi-Ded Dontipi locale

<http://archives.brandonu.ca/en/permalink/descriptions10215>

Part Of: RG 7 Beverley Nicholson fonds  
Description Level: Series  
Series Number: 4  
Accession Number: 1-2010  
GMD: multiple media  
Date Range: 1992 to 2002

## History /

### Biographical:

#### Introduction

Information on archaeological materials in this locale first came to the attention of Dr. Nicholson through Doug Jackson, a local artifact collector from Souris. Doug had observed archaeological materials that included bone, ceramics and lithic material that had been exposed by municipal road building activity, northwest of Lauder Manitoba

#### Environment

The Makotchi-Ded Dontipi locale is located among stabilized sand dunes in the Lauder Sandhills in Southwestern Manitoba, northwest of the village of Lauder. The area is a mosaic of medium grass prairie and copses of aspen poplar and aspen-oak, together with intermittent sedge grass marshes and small ponds. These wetlands are bordered with balsam poplar, water birch, willows and red osier dogwood.

The well-drained upland forest also contains saskatoon, chokecherry, wild current, hazelnut bushes and occasional wild plums. Lowland areas have nannyberries and high-bush cranberry. Wild strawberries grow in lightly shaded areas along trail margins and in open patches in aspen forest.

#### History of Excavations

The Makotchi-Ded Dontipi locale is a virtual "island" of forest and marshlands in a vast expanse of mixed grass prairie. This archaeologically and environmentally rich area was given the Dakota name Makotchi-Ded Dontipi, meaning "the place where we live".

#### Summation

Prior to European settlement, the area was a rich environment for hunter-gatherer people. Archaeological investigations from 1992 to 2002 have revealed numerous sites within the locale. Some of these sites have been extensively excavated while others have been identified or tested.

Seven sites that have been identified in this locale range in age from the historic through protohistoric periods and extend into the middle precontact period. The major sites are the initial Middle Missouri Duthie site, the late precontact Jackson, Bradshaw sites and the protohistoric Twin Fawns, Schuddemat and Hollow B sites. The multi-component Vera site includes historic Métis, late precontact Vickers Focus, and middle precontact Besant, Pelican Lake, McKean Complex and Oxbow occupations. Over 230 units were excavated as well as numerous test pits and several extensive surveys.

### Scope and Content:

#### Scope and Content

The Series has been divided into seven sub-series, including (1) Duthie site (2) Jackson site (3) Twin Fawns site (4) Vera site (5) Schuddemat site (6) Bradshaw site (7) Hollow B site.

Name Access: Makotchi-Ded Dontipi locale

Subject Access: Archaeology

#### Arrangement:

Series is arranged by site and by year of field work.

## MPE C Subsidiary Company and Co-operative Records

<http://archives.brandonu.ca/en/permalink/descriptions10487>

Part Of: RG 4 Manitoba Pool Elevator fonds

Description Level: Series

Series Number: MPE C

GMD: textual records

Date Range: 1926-1992

Physical Description: 2.04 m

History /

Biographical:

As the Manitoba Pool Elevators grew as a co-operative organizations and later a corporation, it acquired subsidiary companies and became involved with other co-operative organizations. These various companies were usually acquired or formed to either reach out to other types of producers in Manitoba or to assist Pool members. MPE was also involved with larger umbrella or subsidiary co-operative organizations.

See also fonds level description of RG 4 for history/bio of MPE

Scope and Content:

This series has been divided into nine sub-series, including: (1) Border Fertilizer Ltd., (2) Co-enerco, (3) CSP Foods, (4) Co-op Farm Implements, (5) Co-operative Life Insurance Co. & Pool Insurance Ltd., (6) Livestock Co-operative Division, (7) Poultry and Dairy Pools, (8) The Wasagaming Foundation, (9) North Cypress-Langford Weed Control Districts

Notes: Description by Jillian Sutherland (2010)

Storage Location: RG 4 Manitoba Pool Elevator fonds

## MPE A Local Association Records

<http://archives.brandonu.ca/en/permalink/descriptions8214>

Part Of: RG 4 Manitoba Pool Elevator fonds

Description Level: Series

Series Number: MPE A

GMD: textual records

Date Range: 1924-1998

Physical Description: 43 m

### Scope and Content:

Series A is comprised of the records of the local co-operative elevator association as established in the period 1925 - 1968 under the Co-operative Associations Act. Until 1968 the local associations were the main administrative unit of Manitoba Pool Elevators. Subsequent to 1968 Pool Elevators became a direct membership top down organization. The central office was at the top, and the province was divided into seven administrative districts, which were in turn each divided into six sub-districts. Each sub-district would usually contain approximately five "locals". Please note that local associations were not obliged to become part of the new structure of Manitoba Pool Elevators, and as late as 1975 there were still 29 locals that did not belong to a sub-district. The records of each local within the Series may, but do not necessarily, contain the following: organizational papers, minutes of executive board, minutes of shareholders annual meeting, financial statements, correspondence, membership lists, miscellaneous. Series has been divided into 233 sub-series.

### Notes:

This series contains records for both local associations and for sub-districts. Item number does not correspond to sub-district number, so an item number and sub-district number may be the same and correspond to two separate records.

## MPE B Central Office Records

<http://archives.brandonu.ca/en/permalink/descriptions8215>

Part Of: RG 4 Manitoba Pool Elevator fonds

Description Level: Series

Series Number: MPE B

GMD: textual records

Date Range: 1923-2001

Physical Description: 16.82 m

History /

Biographical:

The structure of the Manitoba Pool Elevators from its beginning in 1925 until its restructuring in 1968 placed importance in the principle of democracy. The company was run from the local associations, the central office acting as a hub that facilitated communication between all the locals and between the locals and the selling agencies. The central office was not powerless, but important decisions or by-laws could not be made without the consent of the majority of the locals.

After the restructuring of MPE in 1968 the central office took on more responsibilities. It became the top of the administrative structure and instead of members belonging to their local elevator, they were now direct members of MPE. This administrative structure continued until the 1998 merger with the Alberta Wheat Pool to form AgriCore.

Scope and Content:

Series B consists of an artificially assembled collection of Central Office records. It has been divided into the following sub-series: (1) Central Office minute books; (2) Documents; (3) Local Association Minutes; (4) Local association financial statements; (5) District and Sub-district records; (6) Circulars; (7) Annual reports; (8) Speeches & Addresses; (9) Correspondence; (10) Broadcasts; (11) General Reports; (12) Indexes; (13) Summary of Association Operations; (14) Acquisitions; (15) Inter-provincial Committees; (16) Historical Topics.

Name Access: Manitoba Pool Elevators

Manitoba Wheat Pool

Central Office

Accruals: Miscellaneous sub-series has yet to be processed.

Storage Location: RG 4 Manitoba Pool Elevator fonds

## McGuinness artifacts and sound recordings

<http://archives.brandonu.ca/en/permalink/descriptions13682>

Other Title Info: Title based on the contents of the series

Part Of: Fred McGuinness collection

Description Level: Series

Series Number: McG 7

Accession Number: 1-2015

GMD: multiple media

Date Range: c. 1985-1990

Physical Description: 17 artifacts  
10 sound recordings

History /

Biographical:

Artifacts in this series were collected by Fred McGuinness during the course of his lifetime as a community volunteer and newspaperman. Beginning in the mid-1930s through the Second World War, McGuinness worked with the Canadian Pacific Telegraph service in Brandon and Winnipeg. McGuinness frequently wrote about those early experiences in his newspaper columns, journals, and monographs.

In the early 1950s, while McGuinness worked as a publicist with the Unemployment Insurance Commission in Winnipeg, he volunteered with community organizations such as the Winnipeg Community Chest Drive. From 1953 to 1955, McGuinness worked as an organizer for the Province of Saskatchewan's 1955 Golden Jubilee.

After the Saskatchewan Jubilee, McGuinness worked with The Medicine Hat News as a journalist and publisher from 1955 to 1965. During that time, McGuinness became heavily involved with the Medicine Hat Chamber of Commerce. His community and business connections resulted in his appointment as a fundraiser for the Medicine Hat Junior College Library, a building project intended to see the City established with its own college.

After his work with the Saskatchewan Jubilee, McGuinness was asked to be a Regional Director for the Canadian Centennial Commission from 1965 to 1967. During that time, McGuinness returned to his hometown of Brandon in 1966, to start a 20-year career with the Brandon Sun as a publisher and vice-president. McGuinness' interest in local history, of which he often wrote, made him the recipient of local ephemera from his readers.

Custodial History:

Accession 1-2015 contains records created and collected over the course of McGuinness' career as a newspaper journalist and freelance writer. The Estate of Fred McGuinness donated the materials to the SJ McKee Archives circa 2011. The Archives accessioned the records in 2015.

#### Scope and Content:

This series contains artifacts collected by Fred McGuinness during the course of his lifetime as a community volunteer and newspaperman. The artifacts include one telegraph sounder, four letterpress blocks, five typesetter rulers, two patches, two buttons, one token, one tin box, and ten sound recordings.

The telegraph sounder and relay system was possibly a gift from Bill Flett, a CPR superintendent. In his story "Canadian Pacific" published in *Letters from Section 17* (1999), McGuinness mentions receiving a package containing telegraph equipment while he was working at the *Brandon Sun*. The tin box in McGuinness' collection contained copies of telegraphs announcing the end of the war.

Two letterpress type blocks have the letters "WM" which may represent the initials of Fred McGuinness' father William McGuinness. J.R. Langford donated the "Colquhoun and Beattie" type plate to McGuinness, a known collector of Brandon local history. Mr. Beattie had gifted the plate to Lanford's father who worked as a barber in Brandon in 1906. The *Brandon Sun* letterpress is likely from the period when McGuinness worked at the *Brandon Sun*.

The five typesetter rulers come from a variety of typesetter and newspaper companies and include Teletypesetter (Chicago, IL), 6 Cutting Limited (Montreal, Toronto, Winnipeg), Mergenthaler Linotype Company (Brooklyn, NY), and *The Edmonton Journal*.

The two buttons in the collection come from McGuinness' time as a community-volunteer in Winnipeg, Manitoba. One button is from the Community Chest Drive, the other button is a guest badge from the 1953 Provincial Exhibition of Manitoba.

The two patches are from the Saskatchewan Golden Jubilee (1955). Photographs of Saskatchewan Jubilee events and participants wearing the patch on their blazers can be found in the McGuinness photograph collection.

McGuinness saved a Medicine Hat College Official Opening Token from October 3, 1971. McGuinness was likely at the opening as he was originally involved in the establishment of the junior college in the 1960s.

The sound recordings in McGuinness' collection largely pertain to centennial events, which McGuinness helped organize. There is one box set containing four records of the Saskatchewan Golden Jubilee Choir. Tucked in this volume is an additional record of the Choir recorded at CKCK, Regina, Saskatchewan. Also stored within the box set was a copy "Canada, A Centennial Song."

## Provincial exhibition of Manitoba financial records

<http://archives.brandonu.ca/en/permalink/descriptions4355>

Part Of: RG 2 Provincial Exhibition of Manitoba Association fonds

Description Level: Series

Fonds Number: RG2SF1

Series Number: 1.3

GMD: textual records

Date Range: 1903-1939, 1963-1969

Physical Description: 9 cm

History /

Biographical:

See Administrative History for RG2SF1 Provincial Exhibition of Manitoba.

Custodial History:

See sous-fonds RG2SF1 for custodial history.

Scope and Content:

The series consists of the financial records, transfer ledgers and prize money lists created by the Provincial Exhibition.

Notes: Inventory of documents in the series is available in the printed finding aid.

Storage Location: RG 2 Provincial Exhibition of Manitoba Association fonds  
RG2SF1 Provincial Exhibition of Manitoba

## Manitoba winter fair financial records

<http://archives.brandonu.ca/en/permalink/descriptions4367>

Part Of: RG 2 Provincial Exhibition of Manitoba Association fonds

Description Level: Series

Fonds Number: RG2SF2

Series Number: 2.3

GMD: textual records

Date Range: 1925-1977

Physical Description: 76.5 cm

History /

Biographical:

This series was created by a committee attached to the Board of Directors of the winter fair.

Custodial History:

See sous-fonds RG2SF2 for custodial history.

Scope and Content:

The series contains financial statements from 1925 and 1926, as well as financial records from the 1930s to 1969. There is also a transfer ledger from the years 1939 to 1953. There is a box with the statement of prizes won from 1972 to 1977.

Notes: Inventory of the documents in the series is available in the printed finding aid.

Storage Location: RG 2 Provincial Exhibition of Manitoba Association fonds  
RG2SF2 Manitoba Winter Fair

## Miscellaneous financial records

<http://archives.brandonu.ca/en/permalink/descriptions4385>

Part Of: RG 2 Provincial Exhibition of Manitoba Association fonds

Description Level: Series

Fonds Number: RG2SF4

Series Number: 4.3

GMD: textual records

Date Range: 1908-1967

Physical Description: 62 cm

History /

Biographical:

The series was created by the committee involved with the financial aspects of the winter and summer fairs, as well as the committee formed in the mid 1960s to look into the feasibility of creating a complex that could house both fairs

Custodial History:

The records were housed at the Inter-Provincial Exhibition, the PEM, and the MEA until c1986 when they were transferred to the S.J. McKee Archives at Brandon University.

Scope and Content:

The series includes financial records, proposals for an arena complex, financial statements, economic evaluations, annual reports, and a ledger with names and wages in it.

Notes: Part of RG2SF4. Inventory of documents in the series is available in the printed finding aid.

Storage Location: RG 2 Provincial Exhibition of Manitoba Association fonds  
RG2SF4 Miscellaneous
