## Old steam plant construction

<http://archives.brandonu.ca/en/permalink/descriptions8601>

Part Of: Brandon University Photograph Collection

Creator: Photographer: Tom Donkersloot

Description Level: Item

Series Number: 2.12

Item Number: BUPC 2.12.9

GMD: graphic

Date Range: October 1970  
Physical Description: 4.25" x 3.25" (b/w)  
History /  
Biographical:

Donkersloot began working at Brandon University in 1970/1971 as the Clerk of Works. From 1973 until his retirement, he was the Director of Physical Plant.

The 1960s campus expansion necessitated a large, updated heat source so a central steam plant fueled by coal was built north of the campus adjacent to the CPR rail lines on Pacific Avenue. A 25-year agreement was made between the University and John R. Brodie of the Great West Coal Company, which guaranteed BU lower coal prices tendered by the Canadian National and Canadian Pacific Railways on an annual basis. Brandon College Engineer John Kasiurak officially opened the Heating Plant on 24 January 1962. An extension and/or upgrade of the steam plant appears to have occurred in 1970.

Until the 1990s, heat was piped underground to the campus from the Pacific Avenue Heating Plant but inspection standards were outpacing the maintenance and repairs required to keep the plant operating smoothly. Consequently, a new steam plant was built immediately adjacent to the University to the west of Darrach Hall on 20th Street. This building was essential to handling additional loads from the proposed library expansion. The original steam plant was subsequently sold.

Custodial History:

Photograph was taken by Tom Donkersloot during construction and stored in albums in the Physical Plant H-Hut until they were transferred to the McKee Archives by Doug Duncalf in May 2008.

Scope and Content:

Photograph shows the installation of a tank at Brandon University's old coal steam plant at 20th Street and Pacific Avenue. Photograph is looking north and there are some buildings in the background. The tank is being installed by a crane from Brandon Rentals.

Notes: Donkersloot recorded the date and time each photograph was taken on the back of the photos.

## St. Mary's Anglican church and manse - Virden, Manitoba

<http://archives.brandonu.ca/en/permalink/descriptions8689>

Part Of: RG 11 Lawrence Stuckey fonds

Creator: Lawrence Stuckey

Description Level: Item  
Series Number: 3.9  
Item Number: 1-2002.3.9.69  
Accession Number: 1-2002  
GMD: graphic  
Date Range: January 8, 1979  
Physical Description: 8" x 10" (b/w)

History /

Biographical:

The Anglican Church first became active in Virden in 1882. At that time services were held in the home of one of the parishioners. In August of 1885, the Canadian North West Land Company gave the Anglican community a parcel of land at the corner of Ninth Avenue and Queen Street. In December of 1885, a wood frame Church was constructed on the property. The parish of St. Mary the Virgin was officially created on April 20, 1886

The original church remained on the site until 1891, at which time it was sold and removed. The present church was then constructed on the site using field stones from the Assiniboine River valley. The stones were hauled to the site, split and put in position.. Construction began in 1892, with the corner stone being laid by Mrs. Nina Gertrude Watts, wife of the rector. A tin box containing newspapers, building plans and other items was also placed in the foundation at that time.

It is believed that the building's architect, Walter Chesterson of Winnipeg, designed St. Mary's from a small church located on the Isle of Wight.. The resulting structure is a basilica styled Church with a large stone tower at the south east corner, numerous stained glass windows and beautiful woodwork throughout.

It took some years to completely pay off the debt incurred in building, but the congregation persisted and as a result, the church was consecrated in 1905 by the Archbishop of Rupert's Land, the Right Reverend Samuel Prichard Matheson.

Since then, there have been additions built onto the original building, but during each expansion, great care was taken to preserve the look and feel of the original building. Included in these expansions were a fieldstone fence, the addition of a cloister and a extension of the roof to protect the sidewalk. The last major work done was upgrading the foundation under the tower. This was finished in the late 1970's.

The church is located at 633 9th Avenue South.

Scope and Content:

Photograph shows the church and manse.

Notes: Corresponds with negative RA - CPR Broadview Sub [41a]. There is a common misconception that this house was the Anglican manse. Although it was built around the same time, it was never owned by the church and was always a private residence. (Source: Natalie Griffith, Virden resident).
