

S. J. McKee Archives

BUPC 2: Campus buildings

<http://archives.brandonu.ca/en/permalink/descriptions7>

Part Of: Brandon University Photograph Collection

Description Level: Series

Series Number: 2

GMD: graphic

Date Range: c.1909 - 2000; predominant 1960s - 1996

Physical Description: 604 photographs (b/w & colour)

Scope and Content:

Series consists of photographs of various buildings found on the Brandon College/University campus.

Subject Access: Buildings

Storage Range: Photograph storage drawers

Arrangement:

Series is divided into 13 sub-series, including: (1) Aerials; (2) Brandon College Building & Clark Hall; (3) Citizens' Science Centre & Knowles Douglas Building; (4) Richardson Centre & A.E. McKenzie Building; (5) Healthy Living Centre & Henry Champ Gymnasium; (6) Dining Hall & Residences; (7) Education Building; (8) Original Music Building & the Queen Elizabeth II Music Building; (9) J.R. Brodie Science Centre; (10) Dr. James and Mrs. Lucille Brown Health Studies Complex; (11) Jeff Umphrey Building & Glen P. Sutherland Art Gallery; (12) Physical Plant; (13) H-Huts.

Joseph H. Hughes collection - Hughes & Co. business correspondence

<http://archives.brandonu.ca/en/permalink/descriptions8975>

Part Of: RG 5 Western Manitoba Manuscript Collection

Description Level: Series

Series Number: 3-1997.3

Accession Number: 21-2008, 6-2009

GMD: textual records

Date Range: 1882-1920

History /

Biographical:

See collection level description of the Joseph H. Hughes collection for biographical information.

Custodial History:

See collection level description of the Joseph H. Hughes collection for custodial history.

Scope and Content:

Accession 1-2008 (32 cm textual records and 1 map; 1906-1916; predominant 1909-1915). As mayor, city Alderman and prominent city businessman, J.H. Hughes came into possession of many city government, civic, and business records during the first decade and a half of the twentieth century.

The accession consists of city records, information on contemporary city utility services and companies including tenders for the construction of the Brandon street railway, documents concerning grain elevators, lumber production, newspaper clippings, as well as personal and city correspondence - including a proposal from the Canadian Northern Railway to construct the Prince Edward Hotel.

Accession 6-2009 (2.26 m textual records; 1882-1920). Records in the accession deal with the business affairs of Hughes & Company. Accession also contains records related to the personal affairs of J.H. Hughes.

Records from 1882-1889; predominant 1882 include: business correspondence. Much of the correspondence is between Hughes and his business associates T.T. Atkinson and Mr. Kennedy at Rat Portage in Ontario. Mr. Bambridge, who ran the Souris Yard is also mentioned frequently. There is also correspondence related to the Reid Farm, Hughes' first commercial farming venture. Various documents are concerned with J.H. Ashtown Hardware, the Manitoba Government Immigration and Intelligence Office, Butler Paper & Co., Canadian Pacific Rail, Boston and Maine Rail, Keewatin Mills, Charmichael Clothing, The Hudson's Bay Company and the City of Brandon

Records from 1889-1893 include: financial records including debts owed to or by J.H. Hughes & Company; correspondence between the company and partners and employees regarding the running of the lumber company in Brandon, Souris, Rat Portage and Rainy River (shipping of goods, camp supplies, maintenance of mills, ordering of goods, trade with other lumber companies); legal records pertaining to litigation regarding debts; correspondence with the Department of the Interior, the Department of Crown Lands, and the Department of Indian Affairs; correspondence regarding real estate in Brandon and land sales in the various regions of the lumber and grain company's operation; correspondence between J.H. Hughes and his brothers A.J. Hughes, Charles B. Hughes, his cousin J.R. Hughes and his father J.C. Hughes regarding both business and personal matters. Also includes telegraphs, postcards, magazine subscriptions, and Masonic brochures.

Records from 1893-1895 include: business correspondence between Hughes & Atkinson Co. and lumber suppliers in Ontario and the midwestern United States. The records deal with the activities of the company, including payment of accounts, ordering and shipping of lumber and lumber related goods.

Records from 1897-1901 include: business letters, postcards, telegrams and memorandum of the Hughes and Long Lumber Company.

Records from 1907, 1913-1915; predominant 1914 include: business correspondence, product information and legal correspondence generated and/or received during business activities. There are also a series of miscellaneous files containing material related to Brandon municipal politics.

Records from 1915 include: business and personal correspondence to Hughes & Company pertaining to the J.H. Hughes Lumber Co. and farming ventures in Saskatchewan.

Records from 1911-1920; predominant 1919 include: business receipts and correspondence of Hughes & Company under the management of Willard C. Hughes, as well as family correspondence that is both personal and business-related. Business activities are largely related to the company's rental property in Brandon and farms in south eastern Saskatchewan.

related to the company's rental property in Brandon and farms in south eastern Saskatchewan, including Storybooks, ASK. It also includes some correspondence related to the Brandon Board of Trade and Civics (Willed Hughes was Chairman of the Power Committee). Records also include correspondence urging the province to construct an electrical transmission line to Brandon from Winnipeg, the possibility of a detachment of the Royal North West Mounted Police re-locating to Brandon, the operation of the Soldiers Re-Settlement Board, and the vacating of the Winter Fair building, which had been used to house interned World War I prisoners starting in the spring of 1915. References to the Winnipeg General Strike of 1919 and the Teamsters Strike in Brandon of 1919 also occur in the correspondence.

Notes: Accession 21-2008 was processed and described as part of a Historiography class assignment in September and October 2008. The fonds was broken down into smaller components (1-3 boxes of records) spanning a few years and each student was assigned all the records in a particular time frame. Description by Christy Henry, Tom Mitchell, Andrew Dagley, Jill Sutherland, Laurel Neustaedter, Kylie Staslia, Tim Banman, Christine Shumay, Aimee Brown and Erica Smith.

Finding Aid: Inventory for Accession 1-2008.

Storage Location: 2008 accessions

Lovstrom Block D 1987

<http://archives.brandonu.ca/en/permalink/descriptions12541>

Part Of: RG 7 Beverley Nicholson fonds
Description Level: Sub sub series
Series Number: 3.5.1
Accession Number: 1-2010
GMD: multiple media
Date Range: 1987
Material Details: Field journals have been scanned in multi-page PDF files. Artifact catalogues are PDF files in spreadsheet format. Photographs are in jpeg format.

History /

Biographical:

Block D is a wooded with oak and an understory of saskatoon and hazelnut with a thick ground cover of poison ivy and sarsaparilla. Root and rodent disturbance was extensive.

Directed by Dr. Nicholson and with Jane Gibson as crew chief, two units were opened in Block D in 1987. A hearth was identified with a ring of stones containing charcoal and burnt bone. Recoveries included two rim sherds with tool-impressed decorations along the outer edge and two prairie side-notched points. Associated bone was primarily appendicular, indicating secondary butchering.

A radiocarbon date of 230+/-90 B.P. recovered in 1987 from 17 cm below surface is consistent with a Protohistoric occupation.

Scope and Content:

Sub-sub-sub series contains: Summary information of field methodology, number and co-ordinates of excavations, personnel and their staff position; Field journals are daily records of recoveries, features and activities at the site; Site records include excavation level and unit summaries, feature sheets, profiles; sample records and maps; Artifact catalogues are lists and identifications of all artifacts recovered; Photographs are of excavation units, features, the landscape and personnel.

GMD: multiple media
Date Range: 1988
Material Details: Field journals have been scanned in multi-page PDF files. Artifact catalogues are PDF files in spreadsheet format. Photographs are in jpeg format.

History /

Biographical:

Block D is a wooded with oak and an understory of saskatoon and hazelnut with a thick ground cover of poison ivy and sarsaparilla. Root and rodent disturbance was extensive.

Directed by Dr. Nicholson with Ian Kuijit as crew chief, five units were opened in Block D in 1988. Four units were excavated: 88, 91, 92 and 94. A feature in units 91 and 92 contained extensive deposits of large bison bone and fire-cracked rock. Several of the lower limb elements were articulated. Bone deposits were associated with numerous large fire-cracked rocks and were clustered in an area of one meter. Also recovered were a side-notched projectile point and two historic gun flints.

Judging from the association of the gun flints, projectile points, and bison bone, as well as the radiocarbon date of 230+/-90 B.P. recovered in 1987, it appears that this feature is from the Protohistoric period and related to refuse disposal.

Scope and Content:

Sub-sub-sub series contains: Summary information of field methodology, number and co-ordinates of excavations, personnel and their staff position; Field journals are daily records of recoveries, features and activities at the site; Site records include excavation level and unit summaries, feature sheets, profiles; sample records and maps; Artifact catalogues are lists and identifications of all artifacts recovered; Photographs are of excavation units, features, the landscape and personnel.

History /

Biographical:

Directed by Dr. Nicholson and with Jane Gibson as crew chief, two test units TU 107 and TU 108 were excavated six meters apart in 1987 and produced cultural materials which warranted a block excavation. Seven contiguous 1m2 units were opened in 1987 (XU 118, 119, 122, 123, 125, 126 (TU108) and 127). This block proved to be very productive of cultural remains. Large bison bone and fire-cracked rock indicated butchering/processing areas. Two bone tools, fabricated from scapulae were recovered. One is a bone knife – possibly a squash knife – and the other is a bifurcated scapula, which may have been a hoe.

Scope and Content:

Sub-sub-sub series contains: Summary information of field methodology, number and co-ordinates of excavations, personnel and their staff position; Field journals are daily records of recoveries, features and activities at the site; Site records include excavation level and unit summaries, feature sheets, profiles; sample records and maps; Artifact catalogues are lists and identifications of all artifacts recovered; Photographs are of excavation units, features, the landscape and personnel.

History /
Biographical:

Directed by Dr. Nicholson and with Ian Kuijt as crew chief, fourteen additional units were excavated in Block E in 1988. Stratigraphic evidence of distinct activity areas at successive depths and radiocarbon dates indicate at least three occupations (380 BP, 700 BP and 860 B P).

Three identified activity clusters occur stratigraphically, supporting these dated occupations. A clear distinction between Blackduck and Vickers Focus ceramics is evident in this Block. Sixteen small side-notched and un-notched points were recovered in this excavation series as well as numerous unifacial scrapers. Fragments from a grey soapstone tube were also recovered.

Date Range: 1991
Material Details: Field journals have been scanned in multi-page PDF files. Artifact catalogues are PDF files in spreadsheet format. Photographs are in jpeg format.

History /

Biographical:

Excavations took place in block E in 1987 and 1988 with 21 units opened. Ten further units were excavated in 1991 as part of the Brandon University Archaeological Field School, directed by Dr. Nicholson with Brett Waddell as crew chief and Theresa Hill as field assistant.

In 1991 a hearth was identified in Block E as well as a cluster of spoil dirt piles believed to represent material from a pit feature identified in the 1988 excavations. The pit feature is believed to be related to the recovery of clay that may have been used to build ceramic vessels.

Stratigraphic evidence of distinct activity areas at successive depths and radiocarbon dates indicate at least three occupations (380 BP, 700 BP and 860 B P). Three identified activity clusters occur stratigraphically, supporting these dated occupations.

Large numbers of lithics were recovered, forming an assemblage dominated by SRC and KRF with lesser amounts of porcellanite and quartzite. The upper occupation contained some Tongue River Silicified Sediment (TRSS). Eight Prairie Side-Notched points were recovered as well as a lunate biface and an end scraper. Fragments from a grey soapstone tube were also recovered.

Part Of: RG 7 Beverley Nicholson fonds

Description Level: Sub sub series
Series Number: 3.9.1
Accession Number: 1-2010
GMD: multiple media
Date Range: 1988
Material Details: Field journals have been scanned in multi-page PDF files. Artifact catalogues are PDF files in spreadsheet format. Photographs are in jpeg format.

History /
Biographical:

Directed by Dr. Nicholson and with Ian Kuijt as crew chief, eight units were excavated in Block H in 1988. The vegetation is similar to other areas in the locale with an open oak forest with a light understory of saskatoon, hazelnut, poison ivy and sarsaparilla.

Radiocarbon dates from this block indicate two occupations separated in time by some 300 years. The excavation of the eight 1m² units resulted in the recovery of over 650 ceramic fragments including 20 rim sherds from at least four vessels, a grooved maul, fire-cracked rock, lithic debitage and a reworked Avonlea projectile point. A large amount of bison bone, including a number of axial elements and a fragmented skull were also recovered.

The 650 ceramics recovered are of two kinds, representing at least four vessels. Stylistically, two of these vessels appear to be from the Vickers Focus and the third vessel may be Mortlach ware. The fourth vessel appears to be Blackduck and probably comes from the lower occupation. Also encountered were what is possibly a thin ash deposit in unit 180. The presence of a large number of bison axial elements is suggestive of primary butchering activities. Several canid bones were recovered scattered among the bison bone. Although there is no visible stratigraphic evidence, the 14C dates and the different ceramic types indicate more than one occupation in this area and it is likely that several types of behavior and use of space are represented.

High numbers of ceramic fragments are often assumed to be associated with activities characteristic of habitation areas, rather than hunting or butchering behavior. The lithic material assemblage is intermediate between Blocks G and E with KRF being the most frequent material category followed by local cherts.

Scope and Content:

Sub-sub-sub series contains: Summary information of field methodology, number and co-ordinates of excavations, personnel and their staff position; Field journals are daily records of recoveries, features and activities at the site; Site records include excavation level and unit summaries, feature sheets, profiles; sample records and maps; Artifact catalogues are lists and identifications of all artifacts recovered; Photographs are of excavation units, features, the landscape and personnel.

Lovstrom Block H 1991

<http://archives.brandonu.ca/en/permalink/descriptions12671>

Part Of: RG 7 Beverley Nicholson fonds
Description Level: Sub sub series
Series Number: 3.9.2
Accession Number: 1-2010
GMD: multiple media
Date Range: 1991
Material Details: Field journals have been scanned in multi-page PDF files. Artifact catalogues are PDF files in spreadsheet format. Photographs are in jpeg format.

History /

Biographical:

Based on the recoveries at the Block H in 1988, further excavations took place in 1991. Nine excavation units were opened next to the previous excavations. Another 250 ceramic sherds were recovered in 1991. Nine vessels have been identified based on rim sherds. Vickers Focus and Woodland vessels have been identified and two vessels similar to Scattered Village Complex were recovered.

The lithic material assemblage is intermediate primarily KRF followed by local cherts. Two features, a hearth and a curvilinear arrangement of rock were recovered during the 1991 excavations.

The high numbers of ceramic fragments suggests a habitation area, rather than hunting or butchering behavior. However, the separation of occupations at the site is difficult to establish and there may be different uses of the site by successive occupations.

Scope and Content:

Sub-sub-sub series contains: Summary information of field methodology, number and co-ordinates of excavations, personnel and their staff position; Field journals are daily records of recoveries, features and activities at the site; Site records include excavation level and unit summaries, feature sheets, profiles; sample records and maps; Artifact catalogues are lists and identifications of all artifacts recovered; Photographs are of excavation units, features, the landscape and personnel.
