History /

Biographical:

The building pictured was built in 1906-1907. Prior to its use as the Public Library, the building housed the Merchants Bank of Canada. The Library left this location in 1984 when it moved to the former Co-op store on 7th Street & Princess Avenue. This building subsequently became the Brandon Chamber of Commerce building in September of 1985. According to Stuckey, the façade of the building is to remain as heritage building, with interior renovations undertaken with government financing.

Scope and Content:

CPR Ice House Fire with engine 701

Notes: This large ice house, located between the CPR tracks and Assiniboine Avenue at 3rd Street, was filled with blocks of ice from the Assiniboine River each winter. It had a long high platform for [loading ice blocks into] refrigerator cars, and also handled charcoal braziers for heating these same cars in winter. The new ice house structure that was built after this fire was much smaller, as it had an artificial ice plant.

With mechanically temperature-controlled cars replacing ice-cooled refrigerators, it was demolished in the 1970's.

This photograph shows how steam switch engines were used as fire engines. A hose carried in a box under the tender was fitted into a branch of the boiler feed pipe (discharge pipe). When the injector was turned on it gave a nozzle pressure of over 200 psi.
