[illegible]

Graham site 2006 - field journals

The image shows a screenshot of a spreadsheet application. The title bar at the top reads "Graham site 2006- artifact catalogue". The spreadsheet has several columns, with the first column labeled "ID" and the second column labeled "Description". The data rows are filled with text, which is mostly illegible due to the low resolution and blurring. The spreadsheet appears to be a catalog of artifacts, with columns for identification, description, and possibly date or location.
