## Crepeele locale Radiocarbon Report I

<http://archives.brandonu.ca/en/permalink/descriptions11968>

Part Of:	RG 7 Beverley Nicholson fonds
Description Level:	Sub sub series
Series Number:	1.5.1
Accession Number:	1-2010
GMD:	multiple media

Date Range: 2003-2008  
Physical Description: 3 pages  
Material Details: Radiocarbon date reports have been scanned in multi-page PDF files.  
History /  
Biographical:

Crepeele locale Radiocarbon Dates. C14 report by IsoTrace Laboratory for Crepeele site 2005 XU 8.

From 2003 to 2008 field work took place at the Crepeele locale with 75 - 1m x1m units excavated.

To help establish the cultural sequence at the locale Radiocarbon dates were obtained from the three sites in the Crepeele locale.

#### Radiocarbon dating

The technique of radiocarbon dating was developed by Willard Libby and his colleagues at the University of Chicago in 1949.

Radiocarbon dating is used to estimate the age of organic remains from archaeological sites. Organic matter has a radioactive form of carbon (C14) that begins to decay upon death. C14 decays at a steady, known rate of a half life of 5,730 years. The technique is useful for material up to 50,000 years. Fluctuations of C14 in the atmosphere can affect results so dates are calibrated against dendrochronology. Radiocarbon dates are calibrated to calendar years.

Dates are reported in radiocarbon years or Before Present. Before Present refers to dates before 1950. The introduction of massive amounts of C14, due to atomic bomb and surface testing of atomic weapons, has widely increased the standard deviation on all dates after A.D. 1700 causing these dates to be unreliable.

Accelerated mass spectrometry can more accurately measure C14 with smaller samples and can date materials to 80,000 years.

Series Number:	McG 5.5
Accession Number:	1-2015
GMD:	textual records

Date Range: c. 1986 - 1987

Physical Description: Approximately 6 cm of textual records

History /

Biographical:

These records appear to have been produced between 1986 and 1987, the researching and writing period for another monograph, *Manitoba: The Province & The People*. Published in 1988 by Windsor Publications (Burlington, Ontario), *The Keystone Province: An Illustrated History of Manitoba Enterprise* is a 184-page hard cover book, containing 250 black-and-white illustrations and 40 colour photographs.

The authors cover 378 years of Manitoba entrepreneurial history, starting with the Aboriginal Peoples and the early fur trade, ensuing Red River settlement, followed by the war years, and emerging Manitoba economies. The final chapter of the book contains select profiles of Manitoba businesses, many of which were acknowledged as financial contributors to the project.

BU faculty members Dr. Kenneth "Ken" Stephen Coates, Assistant Professor of History, and Mr. Fred McGuinness, Lecturer in Journalism, authored the book. Dr. Coates accepted a position as an assistant professor of Canadian History at the University of Victoria during the book's production. BU Professor of History, Dr. William R. Morrison, was credited as the picture researcher for the publication. Free-lance writer Roger Newman was responsible for preparing the Manitoba business biographies in the final chapter. The book was produced in co-operation with the Manitoba Chamber of Commerce.

Custodial History:

Records were collected and created by McGuinness and Coates during the creation of the monographs *Manitoba: The Province & The People* and *The Keystone Province: An Illustrated History of Manitoba Enterprise*. The materials were donated to the SJ McKee Archives by the Estate of Fred McGuinness circa 2011. The Archives accessioned the records in 2015.

Scope and Content:

The subseries consist of textual records, created and collected during the production of the monographs *Manitoba: The Province & The People* and *The Keystone Province: An Illustrated History of Manitoba Enterprise*. It includes journal articles, book chapters, Government of Manitoba industry publications, a few original photographs used in the publication, and drafts for chapter "brites."

Notes: Information in the history/biography was taken from the *The Keystone Province: An Illustrated History of Manitoba Enterprise* dust jacket and patrons section of the book

In the file level inventory, square brackets at end of file names reference the original location of the file in the unprocessed Fred McGuinness collection. The original location is also noted on the front of each file folder

Accruals: Closed

Language Note: Fred McGuinness often uses journalistic jargon to label his files. A "brite" refers to a short, amusing story. McGuinness often organized his ideas and research materials by potential brite topic

Finding Aid: A file level inventory is available

Storage Location: 2015 accessions

Arrangement:

Arrangement was artificially created by the Archives. Files in this subseries have been arranged according to the order in which brites first appear in the book
