THE QUILL

* PUBLISHED BY THE UNDERGRADUATES OF BRANDON COLLEGE *

* EDITORIAL *

The Music Department of our College has formerly enjoyed only very modest publicity in the "QUILL", But due to recent events, mainly the Hart House String Quartet Concert, we are going to make everyone much more aware of what Professor Wright, his associates and students are doing. This is not meant as a warning to the Music Department, but as a preliminary to one of those "glorification campaigns" that the "QUILL" is sometimes guilty of introducing. As an all-College function, the Concert was an indisputable success - and as the initial program in the series the Music Department is sponsoring, it was a very happy choice. Citizens of Brandon, and students of Brandon College alike are looking forward eagerly to the next concert.

From the Library Window we see the rink being flooded. We wonder if it will be ready for skating before the first of March? But then, skating enthusiasts are always impatient!

The Third Year Lit., is always one of the outstanding events of the year. We were planning to ask one of these industrious Statistics Students to make a chart revealing how frequently an Arts III class had won the shield in the past, but we hesitated to prejudice the judges. However, don't forget to come early. You may be seeing the winner, and the Chapel isn't very roomy (on Lit Nights)

CURTAIN - 8.00 P.M.

The Monthly "QUILL" will appear next Friday. It will be an even better, we hope, than our last issue - but there is still room for good articles. Our preference this time is for articles of some new interest, but we are willing to air your grievances, too, if you write legibly, consult your dictionary occasionally, and SIGN YOUR NAME. This is an ultimatum which we should have expressed before. Positively NO anonymous letters will be accepted for the "QUILL". If you wish your name withheld, you have only to say so, and your identity will not be disclosed. This is for mutual convenience to the editors and contributors.

The weekly meeting of the Debating Club consisted of an Election of a premier for the Brandon College Parliament. Typical political speeches were given by George Thorman, Frank Samis, Bob McCulloch, and George Clement. Clement was elected by a vast majority, though there is a rumour that bribery and stuffed ballot-boxes were utilized by both parties.

And another thing - all people receiving "The QUILL" who are not members of the Brandon College Student's Association, are asked to contribute the subscription fee of One Dollar (\$1.00)

* SPORTS *

Groaning through a merry set of Danish exercises, the girls of the gym class learned that they are now organizing as rigidly as every other college activity. Three teams are competing in all the lines of the 'course' - the aforesaid Danish routine (the object being to see who can climb stairs the next day. Descending them is a physical impossibility) and the more comfortable 'tumbling' and tap-dancing classes. The captains of the teams are Polly Pattison, Agnes Bigelow, Olive Goodwin, who are conducting extra classes for their teams, with the bright hope of distinguishing themselves before a select group of guests some day soon.

Student Chapel, November 16th, was under the direction of the Athletic Association, George Thorman, President of the B.C.A.A. discussed the importance of College athletics on the student's life. 'Play the Game!' he says, should be the rule both in College and in all our future vocations.

SATURDAY and MONDAY* SO WHAT ? *

In case you didn't notice it may we inform you that this column didn't appear in the last issue. Why? Don't ask! - This week we must necessarily devote some space to that Arts IV Lit. We liked it very much. Conscientious effort and co-operation quite evidently stand behind the production of a program of this nature. Orchids to Jean Bennest for a stellar performance! Scallions to those morons in the back of the Chapel who didn't know how to behave like ladies and gentlemen!

It seems rather a shame that at our Lits even members of our faculty cannot find chairs. Some system should be inaugurated whereby undesirable outsiders, many of whom don't know how to conduct themselves, are prohibited attending. We don't begrudge them admittance to our programmes but we have, after all, to look after our own people first. What's the matter with issuing invitations to those we want present?

Wasn't the Hart House Quartette marvelous? We were held absolutely spellbound! The perfection of co-ordination and precision evinced by the artists is something to be wondered at. I know that there were none of us who did not thrill to the strains of "Drink to Me Only with thine Eyes" and that minuet -
