

## College Versus Neepawa Friday Enthusiastic Hockey Excursion To Accompany Team

### BANQUET

Co-ed Formal Banquet  
Delightfully Entertaining

The College dining room was the scene of a really enjoyable banquet last night, when the Co-eds held their first anniversary celebrations. Everyone was in their best, even the waiters were dolled up for the occasion, and there certainly was every reason, for the festivities were of the finest. Through the very kind co-operation of Miss Duncan, the College dietician, the facilities of the dining room were placed at the disposal of the banquet committee and a very successful evening assured.

Beginning with a fine banquet that did much to dispel any aloofness that might have been present, the program included toasts and musical selections and was climaxed with a Fashion Parade by "Mona's." The toast to the Freshettes was proposed by Elsie McLaren and responded to by Philippa Saul. Miss Van Cumming toasted the Co-ed Association, with Jeanne Mutter replying. The toast to Alma Mater was proposed by Edith-Rose Gilson and responded to by Dr. Evans. The concluding toast, to the King, was made by Mary Murray.

At intervals during the evening, Miss Ruth Morgan, Ada Warham and Vivienne Barnwell entertained the guests. The fashion parade, sponsored by Mona's, brought a very delightful evening to a close.

Judge: (to couple caught in the park bench) "Eh, what are your names."

He: "Ben Pettin."

She: "Anne Howe."

### '39 LIT. POSTPONED

The eagerly awaited Neepawa invasion has at last materialized. Thanks to the energetic efforts of Downing, Nelson and Forbes the trip will become an actuality this Friday night. Arrangements were concluded with the Neepawa Hockey Club Monday night and, as we go to press, about eighty students have signified their intentions of accompanying the team. Buses will leave from the College at 4.30 Friday afternoon and proceed direct to Minnedosa and from there east to Neepawa. The whole trip is about sixty-three miles and it is expected that the rooters will arrive in time to be catered to by a local church organization. After supper a few minutes will be available for the students to acquaint themselves with the town and at 7.30 the games gets underway in the new Neepawa Skating Rink, which is one of the finest rural rinks in Manitoba.

Following the game there will be a social period in the local hall and the Collegians will return at an early hour. The buses will be appropriately decorated and Blue and Gold ribbons will be sold to the student body at five cents apiece before the trip.

The financial arrangements certainly reflect the wizardry of Mr. Downing and the watchfulness of Mr. Forbes. The whole trip, bus

#### CONFERENCE NOTE

Winnipeg, Dec. 1.—Two of the addresses at the National Conference of Canadian University Students, which will be held in Winnipeg, December 27-31, will be given by Reinhold Neibuhr of New York, outstanding thinker in the field of world trends. The advisory committee of the National Conference of Students stated today they consider themselves fortunate that Reinhold Neibuhr has consented to attend and speak at the national student assembly. His two outstanding books, "Reflections on the End of an Era", and "Moral Man and Immoral Society" have been translated into many languages and are widely discussed

fare, supper and game will cost **JUST ONE DOLLAR.** This is nothing short of phenomenal as the round trip fare to Neepawa is ordinarily \$2.70, (check this at the depot). Coupled with that you are assured of a substantial supper and hockey game. (Tie that if you can). Students are reminded that their intentions must be known immediately so that seating accommodation at the rink, and supper table will be assured.

#### POSTPONED

The Arts III Lit, which was to have been presented this Friday night, has been postponed in order to permit the excursion. The thanks of the student body are tendered the '39 lit committee for graciously surrendering their prior rights.

Bobby Buckham: "I want another lot of pills like I got mother yesterday."

Druggist: "Did she say they were good?"

Bobby: "No, but they just fit my air gun."

### CONTEST

Small Crowd On Hand  
As Large Cops Crown

Under far from auspicious conditions, three freshmen last Friday night competed for laurels in the revived debating society oratorical contest. The three speakers were sincere and pleasing and all received a good hand from the small audience which was on hand to greet their efforts. Large, who won, was opposed by Jim Smith and Wallace Wright. Between speeches, the audience was entertained by a vocal duet, Miss Sophie Jones and Jean Varcoe, and later by Miss Henderson and Miss Riesberry, who played several numbers.

As a conclusion to a rather varied evening, Dr. Elliott, local chiropractor, gave an interesting address on the science of Chiropidy. Bill Potoroka was chairman for the evening. After the program, a number of students and faculty patronized the Debating Society's lunch stand in the girls' clubroom.

#### COLLEGE BAND

It is believed that the College band will accompany the team on the trip in order to lend some color to the occasion. The band, which will probably be augmented by Walt Dinsdale with his OOMPAAH will be resplendent in College sweaters and is expected to introduce something new by way of time and harmony to Neepawa musicians. Their conductor, when questioned regarding the trip was emphatic in his statements. "No," he roared, "we are not competing with the Neepawa town band, they will play their type of music and we will play ours."

### ● MEN'S COMMON-ROOM.

Not very many years ago there was quite a little flurry at the prospects of an outside men's common room. Changes to facilitate the creation of such an important improvement were well on their way. Room "Q" was made into a classroom, room "M" was given to the student offices and it was originally planned to make the present room "K" into the long awaited men's common-room. Then something happened or rather to be accurate nothing happened. Today there are two classrooms "K" and "S" which are rarely, if ever, used; yet room "P" the only suitable room for such a purpose continues to be used for classes, while the unfortunate men wander around the halls and loaf in the chapel between classes. Will nothing ever be done about the common room idea or is it fated to remain ever a dream?

### ● APROPOS.

A box of flat fifties to Cliff Shirley, who sold no less than eighty-six handbooks.

If somebody doesn't write a letter to the editor about those Clark Hall regulations we're afraid the whole affair will die down and it will be another ten years before any change is made.

### Quill Swaps Issues With Numerous College Papers

The list of exchanges in the Publications Office is a growing one these days. Scarcely a week goes by without some new paper making its appearance on the racks, and there are a number of old timers that have not yet put in an appearance this year. The Sheaf, Saskatchewan University, is a great favorite for humor, (most of which we wouldn't be able to print), while the U.B.C. Ubysey and the Alberta Gateway are also in demand. We miss our old friend, The Manitoban, from whose columns we usually gleaned some news concerning the doings of former Brandon students.

The Early Bird, a new creation last year at Regina College, seems to have suspended publication. The Aquinas from St. Thomas College, Scranton, Penn., is so different from any Canadian College paper. Our advertising manager sits and moons over those half-page cigarette ads by the hour. The Dalhousie

Gazette from Dalhousie University and the Argosy Weekly, from Mount Allison University are both attractive sheets with the latter printed on coated stock.

Probably most interesting of all is the U.C.T. Tattle from the University of Cape Town, South Africa. This unusual paper has been coming to the College all summer, as their College year differs from ours. The last issue to arrive, September 9th, features a decided difference of opinion between the Student Council and the management. Perhaps things aren't so different over there after all. We just can't get used to seeing ads on the front page though. Perhaps we'll have to get used to it one of these days.

Any Guy: "I'm sure dad gets more absent-minded every day."

Any Ma: "What makes you think that?"

Any Guy: "Well, when I met him today, he shook hands and said: 'Pleased to meet you, my boy, and how's your father?'"

## CO-ED - - COLUMN

By MARION ROBERTSON

### Female Opinion Given by Women's Editor

A fitting sequel to the recent article on Men's Preferences would seem to be Girl's Preferences in Men. So, after long hours of serious questioning and research, a list of what we like best in the boys has been made.

It seems that one of the most important traits that a boy must possess in order to find our favor is thoughtfulness. The boys who think only about themselves, and do not give any consideration to the girl with whom they are with, will go down very rapidly in a girl's opinion. Along with this, we might take in manners. There is no doubt that a thoughtful boy would have manners, and yet there are so many whose manners would not carry them very far that we considered it important enough to be definitely mentioned. There is nothing difficult in displaying courtesy, and yet from the amount that a few boys show, it would seem to be one of the most difficult things in the world.

General friendliness is also a very important character. All girls, in fact I imagine all people, like to be spoken to. Even if you have only been introduced to a girl once, do not pass her by without at least saying "Hello." You would be surprised at the difference it makes in her opinion of you.

A good appearance is essential. We do not mean that you have to wear expensive clothes, but that whatever you do wear is neat and clean; and trousers must be kept pressed. It also makes a good impression if boys are clean shaven—especially dark boys, and do not let your hair grow down your neck until people begin to wonder if you have seriously taken up the violin, and are becoming a master.

Boys should at all times be good sports. They should be quite willing to listen to what a girl has to say once in a while. And they should take the girl into consideration at all times. Stubborn boys are not as a rule liked.

Conversational boys will find themselves better liked than those who have nothing to say and yet they say it. Continual silly conversation gets terribly boring. Boys who are able to be humorous without being silly, however, are a boon to the community. Those who are moody day in and day out will not find many girls wanting to go out with them.

In regard to the general friendliness that we spoke of above, boys who are entirely "one-gal guys" should take special note. We do not include all the boys who have one girl-friend and want to stick to her, but the boys who, having this one girl-friend, will not condescend to speak to any other girl on the campus. Just because you have your girl-friend is no reason why you cannot say hello to the other girls, or dance with the other girls. Your aforesaid G.F. is not going to get jealous and leave you in the lurch.

Similar to what we said concerning the girls last week goes for the boys, too. Boys must be able to dance. It is not necessary to know all the fancy steps, but the time must be adhered to. Any girl will tell you that it is often easier to dance with a boy who keeps to strict time than with one whose steps are intricate and who often misses a quarter of a beat.

And last, but not by any means least, do we consider boys with complexes. Everyone has a complex of some sort to some extent, but there are so many boys who for no reason at all that is visible, have either extreme superiority or in-

### DOS AND DONT'S WITH DATES

If your date is coming over to spend the evening at your house, don't keep him waiting for ages before you come downstairs. Of course, it's nice to give him a chance to get acquainted with the family—but be on hand to steer things. If he has never met the family, you be the one to greet him at the door and introduce him. Imagine how you would feel to present yourself at someone's house and have to make yourself known to strangers.

If you're going out with him and you're getting all dressed up in your best evening dress, it's permissible to allow you a few minutes' grace in which to sweep down the stairs to take a grand entrance.

Have a good supply of games on hand so you can entertain your date. Convince your family that you are quite up to entertaining him alone.

It's quite all right to take your date out into the kitchen to rummage in the ice box or the cake box or the cookie jar for something to eat. He'll enjoy that.

The Inside Track

By BILL FRAYNE

THE ONCE IRREPRESSIBLE Royals are only human after all. In fact, they are just a bunch of guys named Joe without that plump speedball, Johnny Millar. We have long been suspicious that the rotund racer was the generator on the Royals machine and College's 18-13 win of last Thursday was ample evidence. During the opening half, the regals hummed like a new top, but a barrage of long shots from the gold-jerseyed Collegians opened their closely-knit defence early in the second period and paved the way for a winning point margin. Dr. Evans was handling the club and his presence undoubtedly made a great difference. It is rather interesting to note that on the two occasions that he has been absent, the team has been defeated.

THE FACT THAT MILLAR, the chunky churner, was unable to appear in the second half when the Royals started to blow was another point which carried weight on the final outcome. We received a letter from Johnny this week and I believe it will prove an interesting one to readers who are not acquainted with him personally. You have probably read of his hoop-ball feats in this column, but Johnny's letter throws a new light on this Royals-Aces standout. He's modest!

Brandon, Nov. 27, 1937.

Dear Editor:

I read with keen interest the letters in your column last week. The one from the pen of "Gallery-coach" was particularly interesting. We will deal with this shortly. Take the first instance, I did not realize that I was such a super-player, in fact the idea must be set at rest. No single player could possibly hope to do all the things "Ling Po" credited or discredited me with doing.

There is one thing that I would like to drive home to the fans and players interested in this column and that is—a basket is not the effort of an individual, but is the result of the combined efforts of five players. So, "Ling Po" all your praise is accepted on behalf of the club. Thanks!

There was something in Gallery-Coach's letter that really aroused our ire. I refer to his riding of Gord Kirk. My personal opinion is that the "Coach" does not know a good defensive player when he sees one. Kirk has held up the College defence for so long that some of the players think that Chandler can keep on doing it—he can—but he

is bound to have an off night when there is one too many men to cover and last Thursday was it. "Mr. Coach," would you please watch the actions of some of your forwards when the opponents get the ball? I believe you will find them interesting—then ask your guards what they think of it. I'd advise stuffing cotton in your ears.

I did not see anything wrong with "Gobs" work on Thursday against the Royals. How about a few bouquets?

Johnny Millar, Royals-Aces.

Thanks, Johnny, write again anytime.

JUNK AND STUFF: Chums, I hate to mince words. Our hockey club is lousy, and just why some extremely dull-witted individuals arranged a game for them in Neepawa next Friday before they have any chance to become even half organized is certainly beyond me. . . . The practice Saturday afternoon was simply jolly despite the fact that tea was not served. . . . Eley, Cannon, McNeill and Wood looked good, Sharpe and Bigelow were fair but the rest, including the guy who was stuffed into the goalie's pads in the goal opposite Eley were poor. . . . Casey will coach the team. . . . Perhaps he can do something with them.

Remember Annie Waychok? The smiling ex-student, who is now attending "U" of Saskatchewan, has the following item written about her in the Sheaf: "Ann Waychok, a freshette, may also be called upon to run the 220 and has been making a fine showing in trials both at the broad and high jump. She also throws a mean baseball." These remarks appeared in a summary of Saskatchewan prospects for the recent Alberta-Saskatchewan-Manitoba track and field meet at Saskatoon.

PROBABLE LINE-UP

The probable lineup for Friday night's game is not yet available, but it is believed that some of the following will be used. Jim Casey will handle the boys.

Table with 2 columns: Player Name, Position. Includes Goal (Frayne), Defence (Eley, Cannon, McNeill), Forwards (Buckham, Woods, Bigelow, Clark, Fraser, Ruttan, Bliss).

Briefly

The French Club is departing from routine meetings this week by presenting a one-act play in French in the Chapel, Thursday afternoon at 4.15. The parts will be taken by senior students in French and it is expected that this novel offering will attract considerable interest. There will be no admission charge and between the scenes the audience will be entertained with several musical items.

Mr. Ernest Petch was host to a number of his intimate friends (Dutch Treat), when the Science Club bested the bitter cold on Saturday in order to partake in the revels of Eddie Cantor when Ali Baba went to Town. For a bit of extra amusement he took the Science Club along with him. Following the show, the members of the Science Club and their guests met at Bigelow's for games from the attic to the basement (almost) and refreshments.

INTEREST HIGH

Dalhousie, N.B., Nov. 30th.—So may students at Dalhousie University and the University of New Brunswick want to attend the National Conference of Canadian University Students, to be held at Winnipeg the last five days of this year, the two universities have asked the committee on organization to increase their quota and permit a larger number of students to attend the Conference.
