

Fabian Education Group.

1908-9.

The FABIAN EDUCATION GROUP.

The Fabian Education Group exists for the purpose of studying Education from a Socialist point of view.

A Series of Lectures has been arranged for the coming winter. They will bear directly on the other important work the Group has in hand, *i.e.*, the preparation of Tracts on Education to be submitted to the Society.

As the spread of Socialism depends on the Education of the Nation, it is most desirable that the Group should be strongly supported by Fabians.

All Members of the Fabian Society are eligible as Members of the Education Group. Non-Fabians, interested or actively employed in educational work, are welcome and may join as Associates subject to the same conditions as Associates of the Fabian Society.

The Annual Subscription is Two Shillings.
